Bourns Releases Ultra-Small 0201 SMD Package TVS Diode Model CD0201-T20C

Riverside, California - November 16, 2016 - Bourns is pleased to announce the release of the new, ultra-small 0201 SMD package Transient Voltage Suppressor (TVS) diode, [Model CD0201-T20C](#). The Model CD0201-T20C is a bidirectional, fast turn-on, low clamping voltage TVS diode.

The Bourns® Model CD0201-T20C is compliant to IEC 61000-4-2 Contact Discharge ± 20 kV ESD rating with an ultra-small 0201 SMD package for applications where the operating voltage is 20 V and below.

The product datasheet with detailed specifications can be viewed on the Bourns website at www.bourns.com.

Should you have any questions or need additional information, please contact [Customer Service/ Inside Sales](#).

Features

- Bidirectional ESD protection
- Low clamping voltage
- Ultra-small SMD package
- RoHS compliant*

Applications

- Portable electronics
- Cellular handsets and accessories
- Audio & video equipment
- Communication systems
- Computers and peripherals
